

About AFWA

The Accounting & Financial Women's Alliance (formerly the American Society of Women Accountants) was formed in 1938 to increase the opportunities for women in all fields of accounting and finance. The mission of AFWA is to enable women in all accounting and related fields to achieve their full personal, professional and economic potential and to contribute to the future development of their profession. Members of the Accounting & Financial Women's Alliance and their companies benefit from practical resources and benefit programs that strengthen their professional growth. AFWA members tap into an extensive knowledge base of accounting and finance professionals with technical expertise to provide solutions for the most complex issues. Our members communicate both virtually and in-person through online discussion forums, national and regional conferences and chapter meetings. Although many of our members have attained professional certifications such as CPA, CMA, CIA and CFP, certification is not a requirement of membership.

Why We Enrolled:

"Denman & Company, LLP is pleased to have the opportunity to use the AFWA Corporate Membership Program for staff members who wish to join this professional organization. Our members attend local chapter meetings to network with other members, promote our firm, as well as earn CPE credit. As new employees join the firm, current AFWA members inform them of the AFWA organization and the opportunities for professional development that are available to them."
